## BOOTH REGULATIONS

### CONSTRUCTION/DESIGN

#### **NEW! Artisan Bakery Expo East is a “Cubic Content” show**

Cubic content refers to the use of space rules in a standard booth space. This means exhibitors can build their exhibit within the entire width, depth and up to the maximum allowable height, depending on the booth type. **A line-of-sight booth design is no longer required.** See booth type and examples on following pages.

All exposed exhibit components extending above the 3’ high pipe and drape sidewalls must be finished. Finished means NO company logos, imagery, electrical cords, or unsightly backing materials. In other words, it must be clean and presentable. Show Management reserves the right to determine whether a wall is finished and may order draping of exposed sides at the exhibitor’s expense.

*Please note that electrical service is not included with your booth equipment but to accommodate possible power requirements, electrical outlets will be installed in every inline booth. An audit will be conducted by electricians and on-site charges will apply if the electrical service is utilized without an order on file.*

#### **Artisan Bakery Expo East is a “No Concrete” show**

Floor covering is required in all booth spaces. Exhibitor is responsible for providing or ordering a floor covering or carpet. Floor covering must be fire retardant in compliance with local fire and safety regulations. Exhibitors without a floor covering will have Freeman carpet placed in their booth, at their own expense.

### **Early Teardown Policy**

Early booth breakdown is strictly prohibited. Artisan Bakery Expo East is committed to eliminating these practices from the show floor on the final day of the tradeshow. **Exhibitors in violation of this policy will receive a written warning in 2022 and a fine in 2023, if they are found in violation again.** Please keep this in mind when making staffing decisions and travel arrangements.

### Show Colors

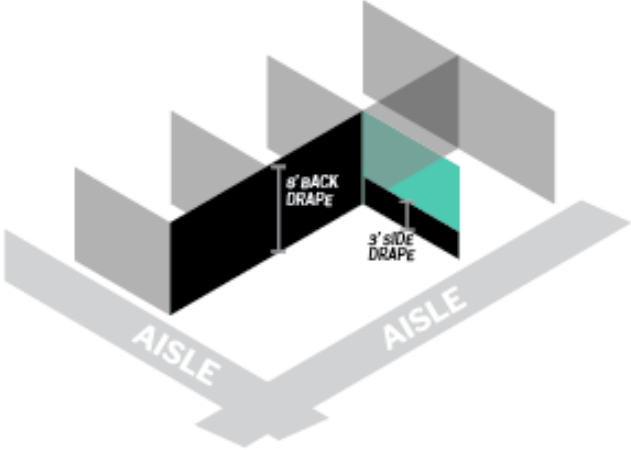

Backwall & Side Drape: Blue & White

Aisle Carpet: Midnight Blue

## Hanging Signs & Airborne Objects

Hanging signs & airborne objects are permitted in all island, split island, and peninsula / end-cap booths with Show Management approval. All other standard booth types do not qualify for hanging signs and graphics, regardless of size. The exception to this rule is if you purchased a signed peninsula / end-cap booth package; a sign will be created and hung above your booth by Show Management.

All signage is to be hung at a height of 14 ft from the floor to the bottom of the sign to ensure consistency throughout the show floor. Size of the signage itself can be up to 8 ft tall and must be finished on all sides.

Hanging Signs should be placed 10 ft away from neighboring booths.

Any booth design variance from this rule must be submitted to Show Management and receive approval. Submit a **Booth Variance Request Form** with your design details and request, in the [Exhibitor Console](#) under “Important Exhibitor Forms”.

### Rigging Orders

All overhead hanging must be assembled, installed, and removed by Freeman. Set up instructions must be provided for signs needing assembly.

Hanging signs should be shipped to the Freeman Advance Warehouse arriving between September 15, 2022 and October 7, 2022 using the [Hanging Sign Shipping Label](#). Plan to use two labels on each piece you will be shipping and use a waterproof marker to address the label and mark your booth number.

### Approval Process

If you'd like to request approval to a sign above your booth, please submit your Hanging Sign request via the [Exhibitor Console](#) under “Important Exhibitor Forms”.

Approvals may be issued at Show Management's discretion. Drawings and three-dimensional renderings of both the hanging sign and the floor supported booth structure, with dimensions, should be submitted to Show Management with the approval request and available onsite for inspection.
